DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.
2. Applicants' amendments submitted August 1, 2000 has necessitated following restriction requirement for reasons stated below.

Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1(partial), 2, 3(partial), 5 (partial), 6-7, 10, 11(partial) and 13, drawn to a pesticidal composition coated with polyurethane and process of making the same, classified in class 424, subclass 501; class 528, subclass 45+.
 - II. Claims 1(partial), 3(partial), 5(partial), 11(partial) and 16-18), drawn to a pesticidal composition coated with epoxy resin and the process of making the same classified in class 424, subclass 501; class 528, sub class 87+.

The Inventions of Group I and II represent separate and distinct products and process with respects of starting materials (isocynate vs. epoxy), process of making and the final products. Particularly, the chemical structures of the two starting materials are widely different as shown by their different classifications. They therefore have different issues regarding patentability and enablement and represent patentable distinct subject matter.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1617

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shengjun Wang, Ph.D. whose telephone number is (703) 308-4554. The examiner can normally be reached on Monday-Friday from 6:30 to 3:00.
